

The Chapel School

2022-2023 Parent Handbook

COVID UPDATES

The following guidelines are in place:

- Notify the Chapel School Office if anyone in your household, or close contacts, test positive for Covid so that we can follow a safe plan to whether your child should attend school.
- As always, monitor your child's health each morning before they come to school for nasal congestion, headache, sore throat, stomach upset, ear pain, etc.
- Notify the Chapel School Office and keep your child home if not feeling well.
- Masks are optional – both for students and staff.
- Drop-off & Pick-up will remain at separate doors/times for each classroom.
- Bathrooms will now be separate boy/girl again.
- We will continue to follow proper handwashing throughout the day: arrival, after toileting, after messy craft projects, before & after water play, after the playground, before snack an/or lunch.
- Social distancing will still be encouraged when possible.
- At this time, EEC is not tracking Covid vaccinations for this age group. If this changes, we will keep you posted.
- We will continue to follow all cleaning and health safety procedures.
- Parents can enter the building to pick up if their child is sick.
- Parents may enter the building via the main door from the parking lot to make a tuition payment or conduct any other business with the Chapel School Office. Parents are encouraged to use automatic tuition payment through Tuition Express.
- Please continue to follow good health and safety practices at home and in your daily routines.

Thank you for helping to keep us all safe & healthy!
